

Request for Council Action

Originator Engineering	Item Adopt a Resolution Approving Amended Easement Agreements for Storm Sewer
Agenda Section Consent Business	Date 2/22/2016

Description

On April 6, 2015 the City Council ordered the 2015-901 Storm Sewer Maintenance Project. As part of the project a storm sewer pipe from Colorado Road to a pond in the back yard of the properties at 10306 and 10312 Colorado Road was replaced. It was discovered that the original easements granted for the storm sewer included a description that did not match the physical location of the pipe.

Staff has worked with the property owners and all have agreed to amend the original easement description to match the physical location of the pipe. This easement was dedicated at no cost to the City.

The City Council is requested to approve the amended easement agreements between the City and the property owners of 10306 and 10312 Colorado Road.

Prepared by: Steve Jorschumb, Land Surveyor
Presented by (if needed): Julie Long, Civil Engineer

Requested Action

Staff recommends adoption of the resolution approving the amended easement agreements for Storm Sewer.
